

## Job Title: Full Stack Developer with ReactJS Experience

**Job Description:** Our Client is a dynamic start-up with a team of 15 employees, working on cross-cutting technologies such as Cloud Services, ReactJS, Angular, React Native, Flutter, Blockchain, C#, Java, Spring Boot, and Enterprise Applications. We are looking for a highly skilled Full Stack Developer with experience in ReactJS to join our team. The ideal candidate will have a strong background in web development, specifically with ReactJS, and will be responsible for designing, developing, and maintaining complex web applications.

### Responsibilities:

- Designing and developing web applications using ReactJS and other front-end frameworks.
- Collaborating with product managers, designers, and other developers to create user-friendly and scalable software solutions.
- Writing clean, efficient, and well-documented code that meets industry standards and best practices.
- Participating in code reviews, testing, and debugging to ensure high-quality code is delivered.
- Working with back-end developers to integrate front-end features with server-side functionality.
- Developing and maintaining project documentation, including technical specifications and user manuals.
- Keeping up-to-date with emerging trends and technologies in web development.

### Requirements:

- Knowledge of web development, with a focus on ReactJS.
- Strong proficiency in HTML, CSS, and JavaScript.
- Experience with front-end frameworks such as ReactJS, Angular, or Vue.js.
- Familiarity with back-end programming languages such as Node.js, Python, or PHP.
- Knowledge of database technologies such as MySQL, MongoDB, or PostgreSQL.
- Experience with Git or other version control systems.
- Strong communication and teamwork skills.
- Ability to work in a fast-paced and dynamic environment.
- Passion for learning and staying up-to-date with emerging trends and technologies in web development.
- Immediate joiners within 15 days are preferred.

If you are a highly motivated and skilled Full Stack Developer with experience in ReactJS and want to work with a dynamic start-up team, we would love to hear from you.
